MEASURES OF ACADEMIC PROGRESS

We use two measures to track our school's academic achievement over time: the Academic Performance Index (API) and Adequate Yearly Progress (AYP). These measures combine test results differently and often provide differing views of student progress.

ACADEMIC PERFORMANCE INDEX (API): This is California's way of rating schools. Using student test scores, the API places schools on a scale from 200 to 1000. Please note that as of September 2008 our school had not been issued an API. The state expects schools to attain an API of 800 eventually.

ADEQUATE YEARLY PROGRESS (AYP): This is a federal measure that requires schools to meet test score goals schoolwide and for all subgroups* of students. As of the date we published this report, September 2008, the CDE had not yet issued our AYP results. Note that the number of criteria may vary from school to school.

*—Numerically significant groups, such as English learners and ethnic groups, with separate API and AYP goals.
N/A—Data unavailable or unreported; statistically insignificant number of valid test scores; testing data under review; or school uses alternative accountability measures.
